FEDERAL COURT AT TRENTON, N. J., RULES CORPORATION NEED NOT DISSOLVE.

#### SUIT FILED FOUR YEARS AGO

Two Opinions Are Filed by Judges-Volume of Business Done Held by Tribunal to Be No Test of What Constitutes an Illegal Pool.

Trenton, N. J., June 5 .- The decision in the United States Steel corporation suit filed in the United States district court here on Thursday holds that the corporation should not be dissolved. The principal points in the decision are:

It refuses to issue any injunction. It holds the foreign trade of the Steel corporation is not a violation of

It holds certain price fixing agree ments which followed the Gary dinners, but which stopped before the bill was filed, to have been unlawful. It allows the government to move to retain jurisdiction of the bill if such price fixing practices are renewed, but suggests matters may now be controlled by the new trade com-

The suit against the United States Steel corporation was filed October 26, 1911, during the . aft administration and was started by George W. Wickeraham, who was attorney-general.

The opinions, two in number, are largely a discussion of whether the steel corporation monopolized the steel trade or dealt unfairly with competitors or purchasers.

"This case, a proceeding under the Sherman antitrust law, is one largely of business facts," says the opinion. It declares all the trust cases so far determined settled down to this, that only such combinations are within the Sherman act as by reason of the intent of those forming them or the inherent nature of their contemplated act wrong the public by unduly restricting competition or unduly ob-

ucting the course of trade. The test of monopoly, the opinio says, is not the size of that which is acquired but the trade power of that which is not acquired.

With the completion of the Eric canal, Lake Superior ores can be brought cheaper to New York harbor than to Pittsburgh. This means, the opinion says, blast furnaces on New York harbor waters. On the basis of the actual iron units in ore, Cuban ores can be delivered in Philadelphia at one-half the cost of Lake Superior. Facts and figures show that there is no possibility of Lake Superior

There were two opinions filed in the case. Judge Buffington wrote the opinion which was concurred in by the other three judges. Judge Woollay also wrote an opinion coinciding Ah the views of Judge Buffington and this latter opinion was concurred by Judge Hunt, now sitting in the Patted States court in New York city. Other points in the decision are:

"The field of business enterprise in the steel business is as open to and being as fully filled by the competitors of the Steel corporation as it is by

No testimony has been produced in this record that a return to the old trade war system of ruinous competition would, as a matter of fact, benefit the public interests.

When it was officially announced that German flyers had dropped 90 bombs, killing four persons, injuring others and starting many fires in the attack, angry mobs surrounded the premises of persons suspected of being of German nationality in Shoreditch, and attacked the shops which were smashed in the previous rioting and had since been barricaded. In one case the occupants fled when

the mob approached, and were pursued by the infuriated crowd. A special constabulary has been called out in an attempt to check the outbreaks.

In Pimlico Walk three shops were attacked. A baker's shop in Pearson street, raided a fortnight ago, was de stroyed by an angry crowd composed chiefly of women.

The statement of the authorities the Zeppelin rald reads:

"Late Monday night about ninety bombs, mostly of an incendiary character, were dropped from bostile air craft in various localities not far distant from each other. A number of fires, of which only three were large enough to require the services of fire engines, broke out. All of them were promptly and effectively dealt with. The fires all were caused by the incendlary bombs referred to.

The president's statement is addressed to the American people. "For more than two years revolutionary conditions have existed in Mexico. The purpose of the revolution was to rid Mexico of men who ignored the constitution of the republic and used their powers in contemp of the rights of its people; and with these purposes the president of the United States instinctively and generously sympathized.
